

# MAXIMUS LEWIS

Lockport, IL | 815.708.4410 | [mlew3223@gmail.com](mailto:mlew3223@gmail.com) | [maximuslewis.com](http://maximuslewis.com)

## HIGHLIGHTS OF QUALIFICATIONS

---

- Conducted a research project, delivered multiple research presentations, and future published research author
- Proficiency in multiple modern programming languages such as Python, Java, Go, and JavaScript
- Experienced with both front-end and back-end development
- Proven leadership, interpersonal communication and collaboration skills gained from working on a yearlong research project and through coursework/projects
- Familiar with Agile Scrum software development methodology

## EDUCATION

---

### Bachelor of Science in Computer Science

Lewis University, Romeoville, IL

Minor: Mathematics

Expected: May 2023

GPA: 3.8/4.0

## TECHNICAL SKILLS

---

**LANGUAGES:** Python, Java, Go, SQL, JavaScript, NetLogo, C, Assembly

**WEB:** JavaScript, HTML, CSS, Node.js, Express.js, Bootstrap 5, Sass, Vue.js, PHP, MongoDB, Microsoft Azure, Google Firebase

**HARDWARE/SYSTEMS:** Windows, macOS, Android, iOS, ChromeOS, Unix, Ubuntu

**APPLICATIONS:** Microsoft Office, Google Docs Editors, macOS Terminal, Git, GitHub, Visual Studio Code, IntelliJ, Android Studio, Eclipse, WinSCP, PuTTY

## RELEVANT COURSEWORK

---

- |                                  |                                   |
|----------------------------------|-----------------------------------|
| • Algorithms and Data Structures | • Operating Systems               |
| • Object-Oriented Programming    | • Mobile Application Development  |
| • Software Engineering           | • Applied Programming Languages   |
| • Database Systems               | • Web and Distributed Programming |

## PROJECTS

---

### In Theaters

- Movie information and ticket searching mobile application
- Android app written in Java that allows users to see new movies that are in theaters
- Utilized the IMDb API to get information about the movies
- Allows users to view movies, view more information, and search the web for tickets

### Movie Deck - <https://movie-deck-1847e.web.app/#/>

- A web application that allows users to register, sign in, and post reviews of their favorite movies
- Written in Vue.js, Bootstrap 5, Sass
- Using Google Firebase for hosting, authentication, and Firestore NoSQL database

## RESEARCH AND PRESENTATIONS

---

### An Agent-Based Model of Environmental Transmission of *Clostridioides difficile* in Healthcare Settings

- Advisors: Dr. Brittany Stephenson, and Dr. Cara Sulyok
- An agent-based model written in NetLogo that simulates the environment of *C. difficile* infection within a hospital ward
- Model includes touch surfaces, healthcare workers, and patients within which the disease can be spread

### Presentations

- Lewis, M. (2022, August). An Agent-Based Model of Environmental Transmission of *C. difficile* in Healthcare Settings. Undergraduate poster session presented at the Mathematical Association of America's 2022 MathFest in Philadelphia, PA.
- Lewis, M. Mahrat, L. (2022, November). An Agent-Based Model of Environmental Transmission of *Clostridioides difficile* in Healthcare Settings. Poster session presented at the Symposium on Biomathematics and Ecology Education and Research at Illinois State University.

**WORK EXPERIENCE**

---

Lewis University

Romeoville, IL

*Engineering, Computing, and Mathematical Sciences Tutor*

August 2022 – Present

- Aided students in Computer Science and Mathematics
- Administered tests when needed
- Collaborated with professors and other tutors to better aid students

Will County School District 92

Lockport, IL

*Building Custodian*

August 2018 – Present

- Ensure building cleanliness per district standards
- Operate machinery to achieve various cleaning tasks around the building and grounds
- Maintain school security by regulating entering/exiting public and staff
- Collaborate with staff to establish well running class and school events
- Perform assigned tasks effectively with minimal supervision

Lewis University

Romeoville, IL

*Student Researcher*

June 2022 – August 2022

- Conducted a literature search on the topic of *C. difficile*
- Compiled notes on past *C. difficile* mathematical models
- Developed a different agent-based model for the spread of *C. difficile*
- Collaborated with a research partner, and faculty mentors on the direction and specific implementation of certain aspects of the agent-based model

**HONORS AND AWARDS**

---

- The Janet L. Andersen Award for Undergraduate Research in Mathematical or Computational Biology (The Special Interest Group of the Mathematical Association of America on Mathematical and Computational Biology)
  - In recognition of “An Agent-Based Model of Environmental Transmission of *Clostridioides difficile* in Healthcare Settings.”
- 2022 MAA MathFest Undergraduate Student Poster Session Outstanding Poster (The Mathematical Association of America)
  - In recognition of “An Agent-Based Model of Environmental Transmission of *Clostridioides difficile* in Healthcare Settings.”
- Recipient, Schmidt Family Foundation Grant for academic achievement, 2020 – Present
- Dean’s List, 7 semesters
  - In recognition of having a 3.5 GPA and above.
